Diseases of male & female

Organs of Generation.

On the Diseases of the genital organs, in men

They are subject

1 To Impotence. This is sometimes congenital from mal conformation of some of the organs. In which case it is mostly incurable.

2 It is acquired by ~~the~~ the intemperate use of venery in early life,

& 3 by the Vice of Onanism. This is the most common cause of this disease.

4 By a hypocondriac belief in imbecillity in the Organs of generation when neither debility, nor disease exists in them.

The Remedies for 2nd & 3d are Abstinence from Venereal pleasures. ~~a vegetable diet vinous Regimen~~ Tonic Diet Drinks - and medicines - the Cold Bath,

and a Liniment applied to the part

and a Liniment applied to the perineum and pubis composed of ~~Opii~~ ~~Bon~~ Spirit Thus parts, Aether V.: Camphord: a One part – twice a day.

Impotence from the 3d Canoe by the Remedies for Hipocondriasis. —

Sometimes a distressing flibliciditm of the Liquor of the prostate gland occurs from the intemperate use of Venery & from Onanism. The Remedies for it are – a loose belly – so as to avoid straining in going to Stool – Chalybeates, Local cold Bath – & the Liniment before mentioned applied to the perineum.

Seminal weakness

This occurs chiefly in the night, and is accompanied by Dreams of

venereal connections. It is true persons
of debauched imaginations are most
subject to it, but I have often met with
it "in ter homines maxime Castos" to
use the words of a Latin ~~Poet~~ Author.
- Young men who have practiced ona-
-nism, are most afflicted with it. many
letters &
many applications (sometimes accom-
-panied with tears) have I received from
persons who labored under this
disease. In ~~patient~~ one of the former
Gent: ~~confess~~ manners over his habits
of vice in the most pathetic terms &
says, that he tied his hands together when
he went to ~~bed~~ bed, to prevent his upsa-
-tiating the vice of onanism in his
sleep. ~~When I consider how much~~
For the terrible effects of this practice

V impotence - the tabes Dorsalis - dimness
of sight - consumption - Epilepsy - and
even fatuity,

in inducing not only 4 seminal weaknesses, but ~~upon habits & morals~~, ~~and~~ I refer you to Dr Lipots excellent treatise upon it, a book which should be put into the hands of young men at an early period of life. ~~To prevent the practice~~. Boarding Schools, where boys are herded together in one or two common bed rooms are the places where this vice is usually learned. To prevent it they should as in France sleep alone - nor should they be suffered to frequent the same Privy together, and when they visit them alone, they should ~~not be deft~~ be respected of having learned the vice, if they remain an unusual time in them. They ~~of~~ should moreover be kept out of the Society of men of debauched morals, and above all, not suffered to keep

company with females, and upon no account to sleep with them. | The Remedies for Seminal weakness, or nocturnal pollutions. are

1 a lax state of the bowels. Why?

2 a vegetable diet. Remember the fact of Dr Stark. —— the

3 Sleeping, or lying always on the side. This is of great consequence. Horace in describing this vice in himself, says it occured when asleep on his back. ——

4 Light drawers so as to prevent an erection of the Penis, for an emission of semen seldom not take place without it.

5 Opium — ~~Laud~~ Ld. so as indue sleep so profound, so as to prevent

V parts acquire strength by their na-
-tural use. — 10. Tying a ligature
composed of soft silk around the penis
at bedtime. ~~This is~~ Previously to the
emission of Semen, there is always an
erection of the penis — now the ligature
by giving pain to the penis immediately
Diverts the current of a lascivious dream, &
by producing a new action in the mind, pre-
-vents and finally cures the Disease. Dr
Stoll says he has never failed of curing
this distressing & emasculating Disease, by this
remedy. Dr A. F. boy cured by it.

Dreaming, without which no emission does
not take place. —

6 The local cold Bath. 7 Tinct: Cantha. -gtt.ˣˣ
& a Salivation. I once knew it cured by
this remedy, after all the above remedies had
failed of success. 9 matrimony. I have known
it cured by this remedy. I always advise it. The
11. 9 To these physical Remedies should be
added the influence of moral & religious
books upon the mind. ~~Lascivious~~ not only obscure
-vation, but lascivious ideas should be
carefully avoided in the day time, for
Dreams always derive more or less of their
complexion from them. /

Diseases of female Organs of Generation

Furor Uterinus. This disease is
accompanied with turgescence & even Inflam[n] in the Vagina, and it prostrates all the delicacy & modesty. It leads to obscene Conversation, and even to gestures. ~~that~~ ~~is one pain~~ It is a Symptom of ~~sometimes~~ mania, for why should not this Disease produce ~~victim~~ and is sometimes a Symptom of it ~~some other causes~~. impure excitement in the venereal Appetite as it does in the appetite for food, and in the passions of Anger, Love &c

Its Remedies - are 1 Vs. 2 purges
3 low diet, & 4 a total Separation of the patient not only from the Society, but the sight of men.

Barrenness

Its causes are general & Local. They are general weakness - or ~~diseases of parts of the~~ Fluor Albus - Obstructed menses, - Phimosis - or Abscesses Uteri - Obstructed or Dropsical Ovaria - and perhaps

V an excessive desire to have children
sometimes prevents fruitfulness, just as
an undue attempts to remember any
thing induces forgetfulness. turnover to 12 4
opposite p: 9.
O It is remarkable that women bred
under the influence of many diseases,
that are as consumption - Epilepsy -
madness - Diarrhea - and even Aneurism.
Mrs Nicholson & Mrs Pilmore. They are a little
suspended by pregnancy - & sometimes cured,
but often continue with but little
alleviation, & return with aggravations.

the pressure of contiguous parts upon the organs of generation. a distended Rectum I can easily believe may produce this effect. But we sometimes meet with Barrenness in women who are in ~~appearantly~~ good health and who have no organic defects in any of the organs of generation. In such women it is probably the effect ~~of~~ of too much ~~irritability~~ ~~of the organs~~ of the organs of generation, or too much sensibility from plethora, ~~or~~ a deficiency of both or of long habits of slothfulness. ~~or~~ The Remedies for ~~barrenness~~ general weakness are Imparting Strength to the System by tonic med: & Sea Bathing & long Journies & a cheerful Society.

The Remedies for Barrenness from organic affections are such as are proper to remove them. They were mentioned in former lectures.

V

4 I have known an instance
of fruitfulness in a woman who
had impaired her health, by desires
the vehemence of her
for Children for 12 years, who became
pregnant, as soon as she ceased to
wish for a Child. turn back to 0

V I have lately heard that certain Domestic
Animals become fruitful by inflaming the Vagina
by thrusting a red pepper of our country into
part of the
it. From the influence which I formerly
ascribed to the nerves in disposing to Venereal
Connections, & fruitfulness, by producing excita-
bility in the nerves & blood vessels of the
genital Organs, it is

The Remedies for this last cause viz:
Excess of Sensibility & Irritb.y or a deficiency
of both — have been suggested by Accident.
They have been 1st a fit of sickness — Lum=
=breds of barren women have borne Child.n
after recovering from the plague &
other malignant fevers. barren
& changing Climate. many women
bear Children after this Arrival in
America from European Countries. This influence of change of Climate is not con=
=fined to women. Even
that Lane ceased to have Lambs, bear
them once or twice after being removed
from one Island to another on the Westn
Coast of Scotland.
3 Conjugal connections after long Sepe=
=rations. Of this many instances have
occured in this Country. 4
By availing Ourselves of these Accidental
Causes for Barrenness it is possible we may
be more successful in treating it. The effects

= probable, some advantage might be
derived from the use of Artificial irritants
~~in~~ introduced into the Vagina in ~~pro~~
creasing basenuss in the female sex.

Bronchocele is induced by the prostitutes
in some Countries after bearing. One Child
by injecting an astringent & irritating liquor into
while it is in an inflamed state,
the Uterus, and inducing such an ~~inflam~~
action as to close the Fallopian tubes.

In By ~~a similar~~ in inflammation and the
formation of a membrane in Consequence
of it, I formerly ~~the~~ succeeded the fecundation
and discharge of ~~the ovules~~ the ovules
was prevented after upwards [illegible] years of
Dysmenorrhoea.

of a ~~fever upon the~~ system may easily be
~~irritated~~ by depleting remedies.
